RUTLAND TOWN SCHOOL DISTRICT REPORT OF THE SCHOOL DIRECTORS

The report this year has to be longer than normal due to the many changes that took place during the year from January 1, 1967 to December 31, 1967.

As usual after close of schools in June we gave consideration as to what should be done to keep the buildings in good repair not withstanding that we were vacating all of the four buildings. We found little to be done other than to move to the new building such furniture, equipment and supplies that could be used and the cleaning of the vacated buildings. All furniture moved was thoroughly cleaned and refinished so that its use along with new furniture was quite satisfactory.

There were many items of interest taking place during the school year. Our usual health program was carried out. Dr. Emily Perkins again served as attending physician. Hot lunch programs were carried out successfully. Some financial aid was given with the understanding that any surplus funds should be returned to the school funds.

We should report and record the status of the four schools which were vacated. The voters of the School District had authorized the Board of School Directors at the annual Town Meeting held March 7, 1967 to find ways and means of leasing or selling the four school properties.

Knowing of the great interest in real estate in the vicinity of the Dyer School, the Board of Directors advertised this property for sale inviting bids to be made prior to July 14, 1967. There were four offers made, the highest being from the Sun Oil Company in the amount of \$72,000.00. They were the highest bidder by over \$30,000.00 (a very pleasant surprise). At the special Town Meeting held August 8, 1967, the Board of School Directors were authorized, to accept the above offer. They immediately did so and shortly thereafter a deed was drafted and accepted by the Sun Oil Company for which they paid to the Town School District the sum of their offer. This sale was of course very profitable in that the Town paid only \$300.00 for the lot on July 18, 1871.

We have not, as yet, been successful in completing the sale of Haiti School. It was advertised for sale on November 21, 1967

and the Board of School Directors accepted the offer of Guido and Clem Forte of \$16,177.00. As yet we have not been able to complete the transaction due to the purchasers being unwilling to accept the quit claim deed offered, being of the opinion that said deed does not grant them clear title to the property. We and our attorneys believe we do offer clear title. We, of course, will continue to find ways and means of satisfying the purchaser that we do give a quit claim deed that does give them a clear title.

Please note. In order for the School Board to have further authority in the sale of this property, there will be an article in the Warning for the annual Town Meeting which, if approved, would grant authority to sell Haiti Property to the highest bidder obtained through again advertising or by dealing with a private party, which might make it possible to sell the property without going to Court to prove our good title. It will also authorize the School Board to name the agent for the transfer of property when sold.

We have had some interest shown for leasing Cheney Hill School. It would be possible to sell this building but we feel that this building should be leased for short periods because if our town continues to grow we may need it for school purposes at some later date.

Our Board of Directors believe as most of our citizens, that the Center Rutland School should not be sold. At this writing, we have leased the four classrooms to be in effect February, 1968. Three rooms are to be occupied by the educational staff who are to carry out a new Federally financed project known as Action Center for Region IV as approved by U.S.O.E. in Washington. The fourth room is to be occupied by the Superintendent of the Rutland Central Supervisory Union.

Voters please note. Whereas we have not provided all of the equipment and materials of various kinds for the new building, we have had many extras to supply which were not included in our original estimates, and whereas practically every item of cost was more than estimated including cost of building which was \$63,000.00 more than originally estimated, we have handled financing so that the net cost to the taxpayer will be about \$540,000.00, which is the amount predicted in the brochure issued and discussed at the Pre-Town Meeting held February 23, 1965.

To pay all costs it was necessary to use about \$20,000.00 of the funds received from the sale of Dyer School to cover the cost of buying three acres of additional land for \$500.00 and the cost of extra necessary items which had not been included in the budget. In using the above sum from the Dyer School funds, it was possible to pay all costs of building and equipment without additional taxes. We will have left about \$52,000.00 of the money received from the sale of Dyer School.

Due to the School District having an indebtedness of \$453,000.00 plus accrued interest the balance of money on hand from the sale of Dyer School Property must be used for educational purposes. We have the funds in hand from 1967-68 taxes to pay bond and interest due in May, 1968. We could pay a bond and interest in 1968-69 amounting to \$42,072.50 from Dyer Funds. But it is the recommendation of the School Board, because of our financing of bonds on a very favorable basis, that we establish an endowment fund of \$50,000 to be handled by a corporate fiduciary and by so doing earn from \$800.00 to \$1,000.00 more interest than we would pay on a similar amount of bonds. In other words, we pay $3\frac{3}{4}\%$ interest on bonds but can earn from 5% to 6% when invested in government or other secured funds.

Why an endowment fund? Before too long we will have additional facilities to provide such as participation in a union high school district and expenses of elementary additions if the town keeps growing as indicated. The procedure, as slated above, would earn us several hundred dollars annually above interest paid out.

Give careful attention to the article in the Warning for the Town Meeting which requests authority for the School Board of Directors to establish the Dyer School Endowment Fund, adding to the fund when other property is sold. There are few, if any, taxpayers now living who paid any taxes to buy and build the Dyer School. It really is a gift from those who preceded us which should be used for educational purposes. Let's establish a Dyer School Endowment Fund.

Whereas we show herein our budget for the 1968-69 school year, we will not be able to determine the amount of tax as we do not know the amount of State Aid nor will we have the amount of the Grand List for the ensuing year. Costs of everything keep

increasing. Our enrollment is increasing rapidly. The principal items which have and will continue to increase are tuition paid for high school students, transportation, teachers' salaries and the cost of our expanded curriculum which is necessary to give our children the education that is necessary to meet the requirements for gaining higher education. We hope the voters will approve our report and the proposed budget.

We thank everyone, who has in any way, helped in the successful operation of our school. We particularly point out the fine help of the Parent Teachers Groups. We thank and appreciate the loyal, efficient services rendered by our teachers and superintendent.

Respectfully submitted,

ALVA T. HOWE

SUPERINTENDENT'S REPORT TO THE VOTERS OF RUTLAND TOWN

The past two years have put heavy demands upon your school directors. Planning a major construction enterprise in this type of economy is difficult, to say the least. Yet, the fortunate combination of architect and builder, guided by a very-much-involved Board of School Directors, produced a most attractive and useful building at a cost surprisingly little beyond original estimates. Chairman A. T. "Pete" Howe has reason to be the proudest of all, for no one has worked harder to protect the interests of the Town, both in educational and dollar values.

Staffing the school proved difficult, but the nearly impossible came about: very capable new people joined our prized veterans and all have blended into a wonderfully cooperative, effective group. Staff names and assignments appear elsewhere in this report; however, Miss Reilly has done such a truly inspirational job in organizing and running the school's program that she deserves special commendation here, particularly since the 1967-1968 year marks Miss Reilly's fortieth of loyal, outstanding service.

New programs include home economics and industrial arts and intramurals and team sports for pupils in 7th and 8th grades. They also are on a departmentalized schedule in science, language arts, mathematics and social studies. This means the students move from room to room various periods of the day, and teachers teach one or two subjects, instead of all subjects. Such an arrangement is stipulated by the State Board of Education to qualify a school as offering an "enriched program" in the junior high school years.

Our kindergarten is functioning very well. A bouquet of thanks goes to all parents for their cooperation in providing transportation, enabling all but three of our five-year olds to obtain kindergarten benefits.

All pupils now received physical education during the day one or more times per week, plus art and music, also at least once weekly. In all of these respects our pupils enjoy broader curriculum offerings which somewhat more than meet expected elementary minimum standards—perhaps one of a very few schools in Vermont to do so.

In addition, the federal funds used during the summers of 1966 and 1967 for summer school experiences are this year providing the part-time help of a teacher of reading and the guidance and psychological services of a school psychologist. Small, extra-help reading classes and individual pupil counseling (including before-and-after conferences with teachers) have been extremely helpful. Recently an additional part-time program, experimental in nature, has also been initiated. A number of pupils, by their actions, indicate strong needs to be a focus of attention within their classrooms, where one-to-one teacher-pupil relationships are limited by the multiple demands of all pupils. So, we are trying out the scheduling of 15 or 20 minute sessions for these pupils when they have a sympathetic adult, "all their own," to read to, or to read to them, to converse with, or listen attentively to them. So far, it appears to be a promising innovation.

The purpose or philosophy behind all of our efforts, in regular classrooms or in special situations, is to focus on the needs of the children, in attempts to remove barriers some may have built up, or built-in, which reduce learning potential. The object is to run a happy, busy school where solid learning challenges each child, and where he receives the warm, respectful support, and special help as needed, to accept those challenges to the full measure of his capabilities.

A focal point in the building, as well as in the instructional program for each child, is our attractive library. The shelves will be filling up with our own volumes, thanks to an exceedingly thoughtful and generous vote of the PTA, and increased funds budgeted by the Board.

All Rutland Town residents may indeed be proud of their new school building, which makes physically possible an educational opportunity; it is most pleasing in this report—only our first after graduation from the four separate buildings—to try to convey the message that the opportunity has already been thrillingly taken advantage of by your Board's foresight in planning and by the very capable and devoted staff which makes up the heart of the actual enterprise.

Our areas of deficiency, insofar as our measuring up to current State "guidelines," area as follows:

1. No adequate provisions (space or instruction) for meeting the needs of children with pronounced learning difficulties. These young people need and deserve special treatment. They are not now receiving an educational opportunity equal—for them—to that provided for the majority of our students.
2. Elementary guidance services.
3. School Nurse services and health education.
4. Secretarial assistance for the principal.
5. Instructional audio-visual equipment such as: projectors (movie, slide, filmstrip, overhead); educational TV wiring and sets; developmental reading pacers; tape recorders; phonographs; projection screens; and the A-V materials the above utilize.
6. Lunchroom and play ground supervision to provide teachers with a duty-free lunch period.
7. Foreign language instruction.

These are most, but not all of the areas in which there are guidelines we do not meet.

The picture regarding the education of our pupils in grades nine through twelve is another area of concern. Early in 1967 the Board of School Commissioners of the City of Rutland was interested in the possibilities of forming a union high school district.

Then, perhaps in March, the Commissioners realized that a union high school district would result in dividing the control of grades K through eight (City's Board) and nine through twelve (new union board). Understandably, the Commissioners felt this to be less desirable than the complete, coordinated control of K through twelve they now have.

It was at this point that they issued to Rutland Town's Directors the now famous ultimatum: you have thirty days to agree to join with us in a K through twelve union, under one board, selected according to the percentage of pupils involved.

Under such an arrangement, Rutland Town's 400 pupils would be one-ninth (1/9) of the total. In addition, attendance areas for elementary pupils would then be at the discretion of

that board. With the Town's new school on Post Road not yet completed, this alternative was most unattractive, to say the least—especially since the new facilities would clearly match or exceed those in any of the City's seven schools. The "ultimatum" was rejected.

The remaining choices are two: continue to send tuition pupils to the City, or seek membership in a union high school district with other neighbors. Sending pupils on a tuition basis is a fragile arrangement, because any agreement made by one school board which attempts to bind a future board, with unknown future problems, is subject to "second guessing" at that later time. The union high school district is a unit comprised of members, each with full-fledged, permanent, equal partnership rights and neighborly obligations.

The pupil enrollments projected by the City, to take care of its own pupils, would be, when added to by any substantial numbers of tuition pupils, at least in the 1200 to 1500 pupil range. If the immense financial pressures on private schools should reach a breaking point, would that tend to force the City's enrollments upward?

These are the questions facing the Rutland Town School Board at present; all doors and avenues to solutions are being kept open and explored. Decisions will be made public when reached, and the helpful opinions and votes of the citizenry will be sought.

Respectfully submitted,

GEOFFREY GRAHAM

Superintendent

RUTLAND TOWN ELEMENTARY SCHOOL

This report is being written prior to the completion of the building and the providing all of the equipment that is needed to operate the school efficiently.

We have yet to provide flag pole and foundation, property sign, some equipment, landscaping and the top coating of all pavements, which we will do this coming year 1968.

We are not able at this writing to give complete financial figures and we have not received our final state aid allowance nor have we provided all of the equipment and other items mentioned above. However, we can report that notwithstanding the increased costs of practically every item since making estimates in 1964 and 1965, we will not find it necessary to request additional funds by taxation nor will we find it necessary to use a great amount of the money received from the favorable sale of the Dyer School property to pay all costs.

It is well to record the principal events which have taken place during the past several years which have made it possible for us to have this fine new school building. The voters for many years discussed the advisability of consolidating our four schools, namely: Center Rutland, Dyer, Haiti and Cheney Hill. It was not until March, 1963 that the voters reached a decision to study ways and means of building a consolidated school building in which we would be able to provide the best education possible for all students, which would prepare them equally or perhaps better than others for secondary education.

At the town meeting held in March, 1963, the School Board was authorized to secure options to purchase properties consisting of at least ten acres which would meet the approval of the State Board of Education, and to report their findings to either a special or regular town meeting.

Several properties were considered and shown to Representatives of the State Board of Education. Their approval was given for 15½ acres of land on Post Road, owned by the Central Vermont Public Service Corporation, who offered this lot to the Rutland Town School District for the sum of \$2,750.00, provided that the construction of a new school building be started within three years from date of purchase. If the building was not started within three years, the property would be turned back to the seller and the purchase price would be refunded.

At a special town meeting held in 1964, the voters authorized the School Board to purchase this property. Whereas the State Board of Education requires only ten acres for an Elementary School where State Aid is expected, it was fortunate for us to have 15½ acres, to be used for our building and the driveways, parking lot and playgrounds and leaching field. We found that whereas we used all of our land for the above purposes, we really needed more land to the west, as our leaching bed was already up to the west line. The Board of School Directors, upon learning of the situation and having in mind that we might rather soon need to expand, purchased three additional acres from the Central Vermont Public Service Corporation for \$500.00. Before making the purchase, we secured the approval of the State Board of Education.

At the town meeting held in March, 1965, the School Board of Directors were authorized to employ an architect to prepare plans and estimated costs of the new building, including some equipment.

The Board recognized the need of more help from the citizens in the study and planning for the new building. They named an Advisory Committee, adding to the Board of Directors Mrs. Anne Houghton, Harold Pulling, Richard Ackerman, Robert Solari and Geoffrey Graham, Superintendent of Schools in the Rutland Central Supervisory District.

It was necessary to have more information about our educational requirements. To obtain this information, we employed Dr. John E. Marshall, Educational Consultant from Belmont, Mass. to make a complete study of our needs. His findings were studied by the committee and the architect.

Our Advisory Committee interviewed several architects who had experience in the designing of schools in New England. Many modern schools were visited before selecting the firm of Irving W. Hersey Associates of Durham, N. H. as our architect.

Then followed many meetings with Architect Hersey and his staff, and with Dr. Marshall for the study of plans preparing same for submission to the voters along with estimated costs.

A pre-town meeting was called February 23, 1965, at which time we presented the preliminary plans for the voters' consideration.

At that meeting, we had guest speakers, namely: Dr. Rupert Spencer and Architect Irving W. Hersey.

Shortly after that meeting, we had another pre-town meeting at which time it was decided that we were prepared to give the citizens of the town enough information for them to vote on the question, "Shall We Build A New School Which Would Consolidate The Four Existing Schools?"

Harold Pulling was named chairman of a committee of citizens who would give of their time in informing our voters in detail about the proposed building. A special brochure was prepared and mailed to all voters.

Right here we want to thank all of the citizens and of course the Chairman, Mr. Pulling, for their help in getting information to the voters.

V-Day for Rutland Town's Educational Development

September 21st, 1965 should be so called for it was on that day at a Special Town Meeting it was voted, 418 to 52, to have our architect complete plans and specifications in preparation for taking figures from General Contractors for building the school.

Also it should be recorded as the day of voting to issue bonds in the amount of \$479,000.00. The issue was sold at a low rate of interest.

On March 25, 1966, the School Board of Directors signed a contract with John A. Russell Corporation to construct the building. Since that day, your School Board and members of the Advisory Committee have been busy in handling all of the details in connection with selecting materials to complete the building and the procuring of equipment and installing same and the providing all books, etc., so that school could be opened on schedule. We did not succeed in getting everything done, but we were sufficiently completed so that on September 7th, 1967, (a day to be remembered) our new school was opened. We are confident that the students were all pleasantly surprised when they were shown through the new building.

**Dedication Day
October 22, 1967**

This day will long be remembered by the hundreds of our citizens who attended the Dedication Services and inspected the new building.

We were honored on this day by being addressed by the Honorable Robert T. Stafford, Vermont's member of Congress.

Further honored by being addressed by Dr. Rupert Spencer of the Division of Special Services, State Department of Education.

Rev. Donald Morgan gave the invocation.

Rev. Thomas H. Connor pronounced the benediction.

The School Chorus made its first appearance in the new building singing the Processional from Tannhauser.

We are grateful and extend our appreciation and thanks to the Structural Slate Company of Fair Haven, the Rutland Plywood Company of Rutland Town, the Vermont Marble Company of Proctor and Rutland Town, the Parent-Teachers groups of the four schools and the Mill Village P.T.A. for their gifts or providing their products at very special prices.

We thank everyone for the help given in providing our new school. We especially thank the members of the Advisory Committee, Miss Reilly, our Principal and the members of the teaching staff.

The strong support of the voters in each step has been gratifying to this Board. It has been the help of all that has made this new school possible.

We have one of the best Elementary Schools in the State. It is well designed and built of quality products. We have established a good curriculum and are well staffed for carrying it out.

Respectfully submitted,

RUTLAND TOWN SCHOOL BOARD

TOWN OF RUTLAND FIRE DISTRICT NO. 1

Report of the Prudential Committee
on the New Sewage System

At this writing our sewer system is complete and working well. We will however be obliged to make some changes in entrance to the plant at sometime in the future because of the new highway going by our property. We are hopeful that we will not find more faulty construction, such as developed during the last 18 months.

A little history of the project should be noted in this report.

It was in the fall of 1962 when we were notified by the Vermont Water Resources Department that our Fire District must stop and control the pollution of Otter Creek.

We employed Dufresne-Henry Engineering Corporation of Springfield, Vermont to prepare plans for three schemes for meeting the demands to stop pollution of the Creek. Engineers did provide three plans and after careful study the voters accepted scheme or plan #3 at an estimate cost of \$125,000.00.

The next step was the issuing of bonds in the amount of \$94,000.00.

We had opportunity to give Rutland City service for part of the area which they had not included in their system. There were several problems involved in accommodating them. One principal one was in getting the State to reduce their right of way charge for running our line over the State owned land which they had leased to the Vermont Railway Corporation. Through full cooperation with the City we were able to get a reduction in the fee of \$1500.00 leaving \$500.00 to pay of which the City paid one half.

We finally made an agreement with the City whereby we would take care of their uncared for sewage through our system on a 25 year agreement in which the City agrees and does pay the Fire District \$2,000.00 per year to help pay cost of the system and maintenance.

Bids were taken for Project #1, the building of the system and Project #2 for constructing the Disposal Plant. We awarded contracts to the low bidder in each instance.

Contract on Project #1 was awarded to Chas. Thygessen Construction Company of Barre, Vermont. The amount of their contract after making additions and deductions amounted to \$59,181.69.

Contract on Project #2 was awarded to Cass-Warner Corporation of Essex Junction, Vermont. This firm completed their contract in a creditable manner. We have found only minor adjustments on their work.

We have great difficulties with the Thygessen Construction Company in trying to get their contract work completed and have failed in much of these items. We have also found faulty construction, meaning not completing work in accordance with plans and specifications.

At the time of putting our system into operation there were several items which the Thygessen Construction Company had not finished so we held back \$1,775.45 to cover cost of doing this work in the Spring of 1966. We could not get them to do it, so we finally notified them we would have work done by others, which amounted to \$1,683.26. This would not have been too much out of line had we not found faulty construction of a manhole near the Hy-way Furniture Store, which had to be rebuilt and a few other smaller mistakes had to be repaired. However on June 6, 1967 we ran into a break in the system causing an emergency in the operation of the system on the properties of Paul Gawet and Mrs. Sapinski. Our Engineers were called back to supervise making the changes in the system, which we did immediately because we were confident that Chas. Thygessen Construction Company would not do the work. This cost us \$1,956.11

This amount has been charged against the Thygessen Construction Company and we have contacted the Bonding Company, The Hartford Accident and Indemnity Company, Hartford, Connecticut. We are endeavoring to obtain from Thygessen Construction Co. and/or the Bonding Company \$1,863.92, which is the amount in excess of retained amount.

Whereas all the figures are in the Treasurer's report it will be of interest to see them reduced to totals.

Total cost of Sewage System including claim against the Thygessen Construction Company— \$140,167.65

Prudential Committee

VERMONT DEPARTMENT OF SOCIAL WELFARE
MONTPELIER, VERMONT

This thirty-second in the series of annual reports submitted to the people of Rutland Town presents tabulations for the calendar year 1967. You may note a reduction in some or all categories of charges assessed your community. This is due primarily to passage of the Welfare Act by the 1967 session of the Legislature and in particular by its elimination of town sharing in programs administered by the Department of Social Welfare. Charges assessed your community were for goods and services received by the recipients prior to July 1, 1967. On those provided after this date there was no local participation.

In the Department of Social Welfare's program of assistance to the aged, blind or disabled 30% of the costs of hospital and physician services, as well as the excess over \$80.00 per month in Nursing Home Care, were assessed against the town of settlement of the recipients of such care. Participation charges incurred by your community during the past year for each of these types of care were as follows:

Nursing Home Care	\$1,635.19
Hospitalization Services	\$199.19
Physician Services	\$11.70

Under similar settlement provisions town participation in the program of Aid to Families with Dependent Children was at the rate of one-eighth the assistance grants while costs incurred for the care of Committed Children were borne equally by the local and state agencies. Charges assessed against your community for the former amounted to \$400.16 and for the latter \$543.94 for the year just closed.

During 1967 assistance was granted to 16 residents in your community under the Aid to the Aged, Blind or Disabled program. Direct money payments to these persons were financed entirely out of the state-federal funds. Among the other programs financed from these same sources were Services for the Blind, Adoption Services, and Medical Assistance. While no town-by-town records are compiled for these categories, their benefits were available to all qualified residents.

Respectfully submitted,
JOHN J. WACKERMAN
Commissioner of Social Welfare

VERMONT STATE DEPARTMENT OF HEALTH
ANNUAL TOWN REPORT, 1967

This is a report to the residents of your town describing the health services which have been rendered during the state fiscal year July 1, 1966 through June 30, 1967. These services are carefully planned so that maximum benefit may be gained from each tax dollar. For instance, one clinic may serve many towns if the number of patients is small. On the other hand, when a service is needed in a town or city, we make every effort to provide it.

I invite you to discuss this report with your friends and health officer and I would welcome any impressions which you care to forward to me.

The following is a list of some of the health services to the residents of Rutland Town:

Attendance at well child conferences.....	225
Pediatric consultations for child health problems.....	—
Number of children given diagnostic services at hospitals..	—
Number of children financially aided with hospitalization..	—
Number of children aided at handicapped children's clinics for speech, hearing, orthopedic, plastic, neurological, or cardiac problems.....	3
Dental health education: number of children served in schools.....	—
People X-rayed for tuberculosis detection.....	—
People X-rayed for occupational diseases.....	12
Attendance at tumor clinics.....	—
Attendance at diabetes clinics or physician screening for diabetes.....	34
Diphtheria, Tetanus, Whooping-Cough Immunizations...	141
Polio Immunizations.....	162
Smallpox Immunizations.....	115

Measles Immunizations.....	32
Number of water samples tested (private and public supplies).....	21
Food and dairy products tested.....	—
Blood specimens (pre-marital, pre-natal, and other).....	6
Other laboratory specimens.....	13
Nutrition, dietary consultations to institutions, groups, and individuals.....	—
Sanitary inspections, consultations (food and lodging, camps).....	56
Water, sewage disposal, public buildings and other inspections.....	86
Hospital, nursing home, and home health service inspections and consultations.....	—
Public Health Nurse visits.....	162
Number served by Public Health Nurse visits.....	15

Respectfully submitted,

R. B. AIKEN, M.D., M.P.H.
Commissioner of Health

Law Pertaining to Brush Fires

"Fires kindled for the purpose of burning brush or for other lawful purpose shall be kindled only at such times and under such conditions as will enable the parties starting them to keep them entirely under control. Except as provided in this section, a person shall not kindle or authorize another to kindle a fire in the open air for the purpose of burning brush, weeds, grass or rubbish of any kind except where there is snow on the site, without first obtaining permission from the fire warden or deputy warden of the town, or the state forester, or his deputy, stating when and where such fire may be kindled. Whenever such permission is granted, such warden, or state forester or his deputy, within twelve hours, shall issue a written permit for record purposes stating when and where such fire may be kindled. Such permission shall not be required for the kindling of a fire in a location which is 200 feet or more from any woodland, timberland or field containing dry grass or other inflammable plant material contiguous to woodland."

Respectfully submitted,

GEORGE LIVAK
Fire Warden

REPORT OF CHENEY HILL CEMETERY COMMISSIONERS

The Rutland Town cemeteries have been kept groomed and maintained. The shrubs that were set out at the Cheney Hill Cemetery have all thrived and are doing nicely.

Ten lots have been sold at Cheney Hill Cemetery.

Any persons desiring further information should contact their Commissioners.

Respectfully submitted,

SHERWIN WILLIAMS
BYRON J. HATHAWAY

GEORGE LIVAK
Cemetery Commissioners

WARNING

The legal voters of the Town of Rutland and Town of Rutland School District are hereby warned to meet at the Town Hall in Center Rutland, on Tuesday, March 5, 1968 at Ten O'Clock A.M. to act on the following matters, namely:

1. Choose all necessary officers required by law.
2. Shall the Town vote to raise money by tax or otherwise to pay current expenses of the Town, Overseer of the Poor, Highway and County? If by tax how much?
3. When and to whom shall the taxes be due and payable?
4. Shall license for the sale of Malt and Vinous beverages be granted in this Town?
5. Shall Spirituous Liquors be sold in this Town?
6. Shall the Town vote to take advantage of the Town Highway appropriation granted to the towns by the State, provided the Town spends not less than (\$50.00) Fifty Dollars per mile of their own money on Town roads outside of Winter maintenance as provided by Sec. 19 No. 250 Public Acts of 1957, as amended?
7. Shall the voters authorize the Selectmen to borrow money in anticipation of taxes?
8. Shall the Town vote to approve an appropriation of (\$1,500.00) Fifteen Hundred Dollars to secure the use of the Rutland Free Library to the inhabitants of the Town?
9. Shall the Town of Rutland exempt from personal property taxation all livestock and poultry located in the Town of Rutland?
10. Shall the Town vote to install and maintain a uniform system of accounting and reporting as established by the auditor of accounts under 32 V.S.A. 162a(1)?
11. Shall the Town School District vote to raise money by tax or otherwise, to pay current expenses of the School District? If so, how much?
12. Shall the School Board be authorized to borrow money in anticipation of taxes?
13. Shall the Town School District vote a sum of money, not to exceed (\$80.00) Eighty Dollars, for a scholarship to be awarded to a worthy high school graduate of Rutland Town who wishes to attend an institution of higher learning, particularly a teachers' training college?

14. Shall the voters of the Rutland Town School District authorize the Board of School Directors to sell the Haiti School property at the highest price obtained through private sale or by again inviting bids, advertising on the basis of a quit claim deed, as can now be given, or if necessary have the title cleared through Chancery Court? The School Board was previously authorized to name an agent for transfer of property.

15. Shall the Town School District pay tuition for the high school education of pupils of said district?

16. Shall the voters of Rutland Town School District authorize the Rutland Town School Board to establish the Dyer School Endowment Fund of Fifty Thousand Dollars (\$50,000.00) as suggested in the School Board's report as published in the Town Report. Said money would be taken from the balance of money received from the sale of Dyer School property and which is not needed for final payment for the new elementary school. The funds would be in the custody and management of a corporate fiduciary corporation, the School Board and the Town School District Treasurer. The fund is for the purpose of building up a reserve fund for covering in part, or in whole, the cost of additional educational facilities. Expenditures from the fund would require the approval of the voters of the School District, however, annually there shall be paid into the School District general fund interest earned, up to (\$2,000.00) Two Thousand Dollars, to be used towards the payment of interest costs on outstanding bonds.

17. Shall the Town vote its officers salaries? If so, how much?

18. To transact any other necessary, legal and proper business which may come before said meeting?

Articles 2, 3, 11, 15, 17, and 18 will not appear on the Australian ballot and will be taken up at 1:30 P.M. The polls will close at 6:00 P.M.

Rutland, Vermont, February 22, 1968
